Professional Summary

A Fresh Management Information Systems graduate passionate about driving Digital Transformation by automating business processes and converting data into strategic assets. Proficient in the full System Development Life Cycle (SDLC), relational database engineering, and leveraging Low-Code solutions (Oracle APEX) and Business Intelligence (Power BI) to enhance operational efficiency and enable data-driven decision-making.

Experience

IT Intern | Malath Insurance

Jan 2026 – May 2026

- **Digital Process Transformation:** Analyzed business requirements to design and implement technical solutions that digitized manual workflows, significantly reducing process lead times.
- **Systems Analysis & Design:** Participated in the full System Development Life Cycle (SDLC), bridging the gap between business needs and robust technical architectures (ERDs/DFDs).
- **Relational Database Engineering:** Engineered and maintained relational database schemas, ensuring high data integrity and seamless organization for enterprise-level applications.
- **Workflow Automation (Low-Code):** Developed functional internal applications using Oracle APEX to automate complex workflows, transitioning the department toward a paperless, digitized environment.
- **Data-Driven Intelligence:** Designed interactive Power BI dashboards that transformed raw operational data into actionable insights, empowering stakeholders to make informed, data-driven decisions.

Education

Prince Sattam bin Abdulaziz University | Bachelor of Management Information Systems | 2026

Certifications & Courses

- ICDL Certification – Imam mohammed bin saud university
- Data analysis in Excel course – Udemy
- Data analysis in Power BI course – Udemy
- Database Management systems Course – Udemy

Technical Skills

- **Digital Transformation:** Business Process Automation, Workflow Optimization, Data-Driven Strategy, SDLC Management.
- **Database Development:** Proficient in SQL and PL/SQL (Procedures, Functions, Triggers), Schema Design (ERD), (DFD).
- **Low-Code Development:** Skilled in building business applications using Oracle APEX.
- **Business Intelligence:** Data Visualization and KPI design via Power BI.
- **Systems Analysis:** SDLC methodologies and requirements gathering.
- **Data Analysis:** Advanced Microsoft Excel (Pivot Tables, Data Modeling).

Soft Skills

- Core Competencies: Analytical Thinking, Problem Solving, and Critical Thinking.
- Interpersonal Skills: Professional Communication, Team Collaboration, and Adaptability.
- Operational Skills: Time Management, Technical Documentation, and Attention to Detail.
